Georgetown, Guyana

July 28, 1978

Mrs. Debbie Blakey
[redacted]

Dear Debbie:

I was very happy to receive your letter and to learn that you are doing well in California. B6

Apparently, from the basis of the newspaper article about you, you are big news back there. As you know, I will be leaving Guyana in the very near future. At this time I am not sure whether I will be able to get up to the community before I leave. There is a problem of no airplane to charter.
T
However, I am sure that my replacement will plan a trip as soon as he can after his arrival. This trip would probably take place some time in late August. He and I will have an opportunity to discuss the situation and I will, of course, fully discuss the entire situation involving your mother before I depart.

I also just received a telegram from, I believe, your brother [redacted] Please inform him that both you and he will receive a report of the results of the visit.

Please accept my best wishes for the future.

Sincerely,

Richard A. Mc Coy
American Consul
